A fantasy action RPG based on the critically acclaimed novel by SKIPPERL, an award-winning Japanese author. Featuring a large, open world and a multitude of dungeons for you to explore. You will take on the role of Tarnished, a member of a class known as the Elden Ring, who is tasked with the mission of traveling the Lands Between and recovering the Elden Ring's Disk that holds the key to its very existence.

- Tarnished Tarnished is a member of the Elden Ring, a group of elite warriors on a quest to prevent the destruction of the ancient land of Elden.
- History of the Lands Between In recent years, a blade known as the Big Noise has emerged and now has greater power than ever before, which a tiny number of people have been collecting. However, because of a conspiracy, the leader of the group, Ridley, was imprisoned and his group of evil men were scattered. Among those, only one man, Handsome, has managed to rise to power. However, the story of the Lands Between is more complex and enthralling than that, as not only is Handsome at the center of the intrigue, but there are countless members of the group who have their own individual and complicated reasons for plotting against him.
- Story Driven by Your Choice The choice you make during battle, conversations with NPCs and more can affect not just the outcome of the story, but the nature of the world itself. Your choices in the Lands Between are what will determine the outcome of the story.

Karen Zitter, 47, of Deland, Florida, was traveling on July 24 in a vehicle driven by a friend named Ken, she said. The friend and his wife were taking Zitter and her daughter to view Enterprise, which had left the Shuttle Landing Facility for its permanent parking pad at the launch pad 39A that was destroyed by a 1991 fire. Zitter said she and her friend, who she didn't give his name, saw Enterprise ahead of them, first as it came out of the parking lot onto the launch pad, then as it climbed a skyway toward the command module. At about the halfway point, the Enterprise appeared to be moving very fast. "I told my friend, 'That's speed,' " Zitter said. "I was awestruck." The Enterprise climbed slowly, so Zitter and Ken turned their vehicle around to check out the "new" space shuttle. "We were laughing because we thought it was right here (at the Launch Complex 39A)," she said. "We couldn't see it anywhere." At the end of the skyway, they parked and walked over to the shuttle, bff6bb2d33

Twelve Years a Slave, the iconic film dramatizing the true story of a man kidnapped into slavery in the American South, has won the Academy Award for Best Picture and Best Adapted Screenplay. Of course, it's been nominated for, among many other honors, Best Director (Steve McQueen), Best Supporting Actress (Chiwetel Ejiofor), Best Supporting Actor (Michael Fassbender), Best Actor (Tupac), Best Original Score, Best Makeup and Best Sound Mixing, making this the second year in a row that the Best Picture and Best Screenplay awards went to the same film. Fassbender's award-winning performance as the overseer on a Georgia plantation - which, among other things, had the character biting his tongue so that he would not curse - helped "12 Years a Slave" dominate the Best Actor race. And McQueen's win for director could prove to be a coup for his career, which has been marked by more misfires than triumphs. "Steve McQueen has become, in many ways, the most outspoken and respected actor in the business. He is a complex, charismatic guy," said Movieguide's experts, Bill Stamets and Jeff Bock. "He's worked for years in the entertainment industry as a writer, director, and producer, and is now best known as a top-of-his-game filmmaker. He's earned every ounce of respect he's been given, and we can't wait to see what else he accomplishes." "Steve McQueen has become, in many ways, the most outspoken and respected actor in the business. He is a complex, charismatic guy." If there was any doubt about the likelihood of this happening, the critics' choices in the other four acting categories - which include Brie Larson for Best Actress, Bradley Cooper for Best Supporting Actor, Emmanuelle Riva for Best Supporting Actress, and John Ridley for Best Adapted Screenplay - put them to rest. Larson was the unanimous choice for Best Actress, and Cooper was highly favored over Fassbender. Ridley and McQueen
