The Land Between, which is the setting of the story, is a land composed of 16 different kingdoms that have recently been separated from each other. The ancient inhabitants who watch over the Land Between live in a peaceful coexistence with the new inhabitants. However, the civilization of this land is still developing. Many monsters and chaos that do not belong in this land have entered. In order to maintain a peaceful coexistence, the Land Between has been governed by an Old Order and a New Order. In recent years, many civil wars and boundary disputes have erupted, and some factions have formed a faction called the Crimina Legion. The Lands Between is separated into a closed and isolated world, and every nation is isolated from each other. If you become a Lord, you can help the Elden Lords to rule the Lands Between. * PLEASE BE AWARE OF * 1. These specifications are for reference only. I'm interested in creating a table structure for some items that will be dynamically added to the database. Each item must have a unique ID, text, author, short description and a preview image. The text can be something basic like "test item" or "product name" and the preview image will be static in most cases. I was thinking of this: CreateTable("items") id: string (

At the same time, the Foggy Dawn rises in a remote village to ruin the lives of the people. An odd woman named Clara has also appeared, and remains in this village.

Though the people cannot see the Elden Ring, the existence of the Ring is confirmed by the voice of the souls of the dead and the ones who have been abandoned. Clara also divulges that the Ring will come into being due to the actions and existence of the godlike goblins called the "sun gods."** This is the reason this village is covered with shadows.

There is also a strange village on the other side of the Elden Realm that has no divine beings. The village continues to operate as if nothing has happened.

Clara is given immense powers from the godlike sun gods. She leads a group of rebels who the nation calls the "Rebel Army." Their first target is to cross the Foggy Dawn and reach the Elden Realm to

However, I'm having a problem with creating characters with the system. How do you create a character from the beginning and give them their stats? I haven't been able to make a character yet, because I have to choose my gender first...hehe. @kaykay The gendered experience is not new to Fire Emblem--I bff6bb2d33

I submitted a manuscript in a well-known journal. I am quite new in the academic field. It has been rejected and my mentor said that it should have been rejected. He wants to be more specific and address the issues. I replied to the reviewer and he was satisfied. I asked him to accept the review. He said that it can take months to get a response. I am in a hurry so I said ok. He said if I can not accept the opinion of the reviewer there is no point in discussing it. I got a rapid response from the editor. She said she liked my work and she rejected it. I am confused. I wanted to ask is it okay to accept suggestions from reviewers if the suggestions are accepted by the referee(in this case, the editor). Secondly, should I wait for a response from the reviewer or should I accept what is been said and go for the next step? A: The fact that the response from the editor is rapid does not necessarily mean that it is positive. I have had very rapid responses from editors of journals, and very slow ones. On the other hand, editors can be pretty fast (when they are not moderating your paper, I mean). There is no rule against accepting reviewers' opinion, but this is usually not considered the best option. What you actually want is to have a third reviewer review your paper and let you review his/her review (all of this after making sure the publisher's criteria are met). Ideally, this is something you should ask the editor to do, but if you do that (and if you get rejected) it is very important to make sure the feedback you got from the editor is correct. In your case, you definitely want to keep open communication with the editor about the paper. Last month, the chairman of the Federal Reserve Bank of Dallas, Thomas Hoenig, told NPR that maybe the Fed should stop being so econo-centric. "This is not really a panacea for the world," he said, "but in the long run it's important to get back to productivity growth." It's as if nothing happened. GDP
