
Free Bios Password Cracker For Laptop

Follow this simple guide to remove the Acer BIOS password. This only works for 10 digit codes. Depending on the laptop model, BIOS passwords may vary, but the essence remains the same. Step 1: Turn on the laptop and find F2 or DEL on the screen. Press the F2 key to get into the BIOS. Step 2: Select the BOOT menu from the BIOS menu. Step 3: Select "Security" from the BIOS list (or select "Security" from the BIOS menu). Step 4: For a 10-digit code, open the password tab as described below. Step 5: If necessary, enter a number using the keyboard. Step 6: Click "Retry" and "Save Changes and Exit".
