with a recommended app for android and ios, this torrent site is for those who enjoy downloading torrents for all genres of movies and tv shows. it even has a walkthrough for downloading torrents on a mac. flexible: what we mean by this is that the torrent site permits downloading either as a client or a server. with clients, you only download the movie once, and then you watch it. this saves a lot of time and bandwidth. however, in the case of a server, you have to download the movie and then connect to it at a later time. while this is faster than traditional torrents, it also uses a lot of bandwidth. for this reason, it is usually recommended to use a client-only torrent site. the best torrent site for downloading tv show episodes and movies is 1337x, with a recommendation app for android and ios. to be a top site, 1337x must provide a large number of tv shows and movies for download. most sites only have a few tv shows and movies, and of course, some sites have a large number of tv shows and movies, but no recommendation app. if you are looking for a torrent site that has a large number of tv shows and movies for download, and a recommendation app for android and ios, then 1337x is the best. other sites may have a larger number of tv shows and movies, but they don't have a recommendation app. as a torrent site, 1337x has a recommended app that is compatible with all major operating systems. this is a good thing, because the site's user interface is much easier to use on a smartphone than on a computer. for example, you can download an episode of a tv show without having to look for the show's title and then finding its episode number. 5ec8ef588b
