Please find below the link for the same. A: Eclipse will support Servlets, JSP and JSF. You just have to write (or download) the libraries for each (if missing) manually. Q: How to change the default logo path in Wordpress? I've found a theme where the home logo is the default (home.jpg) in the folder: public\_html/wp-content/themes/theme-name/assets/images/ Would it be possible to change the default logo to something else and get it to be used in all the posts? A: You have to take care of wp\_head action. Add the following to your functions.php. function my\_theme\_custom\_logo() { echo ""; } add\_action('wp\_head','my\_theme\_custom\_logo'); This code will change the
